

# 350 Molehill Leveller

# Hayland Float

**Jiffy** **Jiffy**

## For Precise Land Cultivation

**Level your pastures, hay meadows, riding arenas and many other areas!**

Rid your land of mole hills, humps and hollows. An economical way to prevent expensive repairs to mower conditioners, disc mower conditioners, balers and forage harvesters. Level pastures to reduce livestock injuries. Front tubes are loaded with steel punchings for added weight. Tow hitch is hydraulically adjustable.
